Petrus Handika

Full Stack Developer | Web, APIs & AI

Indonesia | petrushandikasinaga@gmail.com

github.com/petrushandika | linkedin.com/in/petrushandika

Profile

Full stack developer building across interfaces, APIs and data. Focused on practical software, maintainable code and thoughtful web experiences, with interests in AI and workflow automation.

Technical toolkit

Frontend: React, Vue, TypeScript, JavaScript, HTML, CSS and Tailwind CSS.

Backend: Go, Node.js, Express, NestJS and Python.

Data and tools: PostgreSQL, MySQL, Prisma, Git, GitHub and Figma.

Experience

LinkedIn lists full stack development at Astronacci International and 14DAYPILOT Flight Academy, web development at PT Estetindo Global Indonesia, and a machine learning cohort at Coding Camp powered by DBS Foundation.

Public work

Public repositories: Danaku (personal finance), Reluv-App (preloved commerce), and Structra (AI-assisted UI engineering). Explore code and documentation at github.com/petrushandika.

Portfolio: petrushandika.com.

Interests & collaboration

Web development, software tools, sports and learning through hands-on projects. Open to collaboration on useful web applications.
